## BASEBALL LEAGUE SEEMS ASSURED

Another Meeting Will Be Held At Community Hall Today in Greenwood

Plans for forming a Four-County Baseball League were discussed at a meeting of interested fans at the Community Hall yesterday afternoon, but no action was taken, owing to the absence of representatives from Anderson, who failed to come on account of a misunderstanding as to the time of the meeting. Another meeting will be held tomorrow afternoon at 4 o'clock when it is hoped that definite arrangements can be made.

The plan is to have a league composed of Greenwood, Abbeville, Anderson and Laurens counties, and if one of the last three named does not enter a team, to include Elberton, Ga. Abbeville sent over several enthusiastic fans to the meeting yesterday and they promised that their city would take part. Laurens did not know about the conference, but telephoned that she was interested and agreed to send a delegation to the meeting tomorrow as did also Anderson.

The organizers will discuss the advisability of enlisting the interest of 100 men in each county to the extent of subscribing \$10 each, which it is believed will be sufficient to pay the expenses of each team during a season of two months. The tentative opening date is one week from next Monday, June 19th, and the schedule calls for two games a week in each town. Only local talent, that is, only players who reside in the four counties, will be eligible to play, each county to have its own team of home boys.

The Greenwood representatives at the meeting yesterday were confident that they could get up a Greenwood team with little trouble on account of several college players in the city and county, including the splendid team which Dr. Pratt Henderson organized at Phoenix last summer.

All interested fans are requested to attend the meeting at the Community Hall tomorrow afternoon at 4 o'clock and lend their support to the movement. It is regarded as almost certain that Abbeville, Anderson and Laurens will send delegates instructed to guarantee the organization of teams in their towns. —Index-Journal.

### NEW S. A. L. POLICY

The Seaboard Air Line Railway Company has introduced a policy in its official organization which it is stated will be far reaching in results.

A comprehensive plan of organization was adopted at a meeting of the board of directors. A budget committee of three members has been created and other additions and changes in official policy made. A permanent labor committee has been established.

No expenditure will be made in any department or division of the railroad that has not been submitted to and passed on by the budget committee, subject to the approval of the president. President Warfield in announcing the organization to the officials and employees closed with the following statement: "The management desires an impartial, full and fair consideration of all subjects and proposals that come before this committee with an earnest desire and determination to reach a settlement if possible. It is hoped that all employees will approach this committee entertaining the same desire and determination. The management desires to avoid going outside the Seaboard organization for promotion. Understudies are to be named in the various departments."

### SHARON COOKING CLUB

Mrs. Gibbons met with the Sharon Cooking Club Tuesday afternoon, May 30th. The making of sponge cake was demonstrated and several club songs and yells were practiced.

Elizabeth McNeill, Secretary.

### Aids Flavor.

Add the leftover juice of peaches, quinces or cherries to cooked apples. The result is a very pleasing flavor.

## PRESENT WEEVIL CONDITIONS

No Need for Extreme Pessimism As To Damage.

Clemson College, June 6.—After a conference here between Director W. W. Long, of the Extension Service, Prof. A. F. Conradi, Entomologist, and V. V. Williams, until recently associated with B. R. Coad at the Delta Laboratory and now with the Extension Service to conduct poisoning demonstrations in this state, Director Long issued a statement on the boll weevil situation to the effect that many of the insects now present on cotton in various parts of the state are not boll weevils but cowpea pod weevils, and that farmers need not become panicky over the presence now of abundant boll weevils, since the real loss to be expected depends on weather conditions in June and July. Director Long's statement, which should tend to temper the alarm now felt by many, is given below:

"A great majority of the weevils in most of the cotton fields at this time are cowpea pod weevils and not boll weevils. These insects in most cases look so very much alike that it is difficult for the average man to distinguish them. The cowpea pod weevil is not primarily a cotton pest but occurs on cotton only temporarily in the absence of cowpeas. This pest is most injurious along the line from Barnwell to Marlboro County. In this belt it is expected every season at this time, and the most successful practice is to delay chopping of young cotton until the attacks are over. Wherever these insects attack cotton that has been chopped to a stand the value of rapid thorough cultivation cannot be over estimated.

### Summer Weather Main Factor.

"The fact that the boll weevil passed the winter in great numbers and may be expected in cotton fields at this time in unusual abundance, does not necessarily mean great damage to the cotton crop. Situations like this have occurred before in the history of the weevil in this country, where they came out of winter quarters early and in great numbers, causing a panicky condition among the farmers. The loss that we may expect depends on the weather conditions of June and July.

"With the approach of hot weather the present generation of weevils may yet be practically destroyed, so that the abandoning of a cotton crop at this time could hardly be justified by the records. The cotton should be given frequent and shallow cultivation to keep down the weeds and to air the soil. As the bulk of the cotton crop in South Carolina is made by share-croppers, the women and children should be used to pick weevils, and this should be so supervised that it is done with great thoroughness, otherwise it has no value whatever.

"The damage done by weevils injuring the bud at this time is frequently overestimated, the only effect being slightly delaying the growth of the plant.

"Farmers prepared for dusting are advised that the first dusting may be given in heavily infested fields about the time fruiting begins, and this to be followed by the second application when ten to fifteen percent of the squares have been punctured, at which time three dustings should be given in succession four days apart. Infestation counts are easily made by anyone and directions are furnished by the Extension Service."

### BIGAMY CHARGE AGAINST VALENTINO IS DISMISSED

Los Angeles, June 7.—Rudolph Valentino, screen actor, whose principal roles have been those of love hero, was liberated of a charge of bigamy here today when the felony complaint against him was dismissed after a preliminary hearing before Justice of Peace Hanby. The justice ruled there was insufficient evidence to support the charge.

The dismissal of the case followed three days of testimony concerning the marriage in Mexicali, Mexico, May 13, of Valentino and Miss Winifred Hudnut, professionally known as Natcha Rambova and their honeymoon in Palm Springs, California, a desert oasis south of here.

### MONTEREY VS. WARRENTON.

The Monterey base ball team met the Warrenton team on the Monterey diamond Saturday afternoon and played a very interesting game resulting in a score of 17 to 11 in favor of Monterey.

## 19 CANDIDATES IN STATE ANNOUNCED

This Includes Four Candidates For Governor, One For Lieut. Governor

Columbia June 7.—Nineteen candidates have thrown their hats officially in the ring, and the campaign starts two weeks from today. There are four candidates who have already filed their pledges for the race for governor; one for lieutenant governor; three for state superintendent of education; eight for Congress; one for adjutant general; one for state treasurer and one for solicitor.

The four aspirants for the governor's office are: Thos. G. McLeod, of Bishopville; J. E. Swearingen, of Columbia; A. J. Bethae of Columbia and C. L. Bleas of Columbia.

For lieutenant governor: J. K. Owens of Bennettsville, a member of the House of Representatives, is the only candidate so far.

For state superintendent of education O. D. Seay, of Columbia; J. H. Hope of Union and Paul Moore of Columbia have filled their pledges.

For congress seven present members have entered the race for re-election and one new candidate has filed. The new candidate is Sam H. Sherard of Ninety-Six. The aspirants for re-election who have to date filed their campaign pledges are: Congressman Dominick of Newberry whom Mr. Sherard will oppose; McSwain of Greenville; Fulmer of Orangeburg; Logan of Charleston; Stevenson of Cheraw; Byrnes of Aiken and Stoll of Kingstree.

Hon. E. T. Hughes, member of the State House of Representatives from Marion, had announced that he would run for governor, but he has this week made public announcement of his withdrawal from the race. In making this announcement he states that he is tired of politics and wishes to devote his time to the law practice and his family.

Attorney General Wolfe is in the

J. F. Ellenburg spent Sunday with Mr. Mack Williams.

J. F. Rogers and son spent Sunday afternoon with Mr. Mack Williams.

### GEORGIA-CAROLINA BOUNDARY LINE FIXED

Columbia, June 6.—One of the last acts of the United States Supreme Court before it adjourned yesterday was to fix the boundary between the two states of South Carolina and Georgia. In accordance with its opinion of some months ago, according to information received by Attorney General Wolfe today, the Court orders that the boundary shall be the Savannah, the Tugaloo and the Chattanooga rivers to the point where the Chattanooga touches the North Carolina line. Where there are no islands in the river, the line is the middle of the stream. Where there are islands, the boundary is mid-way between the island bank and the South Carolina shore. All islands in the Chattanooga are part of Georgia. The two states are to divide equally the cost of the boundary litigation, the Court declares.

See us for Velvet Beans. Shipment just arrived. B. T. Cochran & Co.

race for re-election and Jerome F. Pate, of Darlington, has announced for Congress.
